

Fly & Fly Executive

LEGS

Two (2) legs made of stamped sheet metal, coated in epoxy powder. Column is height adjustable via electrical motor as per the following characteristics:

- Height Adjustability Function: 3-Stage
- Electrical Motor: Single
- Column Cross-Section: Rectangular
- Height Range: 720 -1260mm
- Control panel with Up/Down and three memory buttons
- Height Adjustment Speed: 38mm/s
- Load Capacity: 125kg
- Power: 100-240V
- Sound Level: <50dB

Foot is fitted with leveling feet for possible floor level abnormalities. The front modesty panel brackets support can be fitted under the desk-top for simultaneous movement. Available in two versions to be used for tops of 80cm and 60cm in depth.

Supplied knock-down, packed in triple-layer cardboard and complete with screws for fixing to the tops.

HORIZONTAL SUPPORT BEAM

Single beam made of telescopic, U-shaped metal sheet. This feature allows using only one element to mount any top between 120 and 200cm in length. The internal compartment of the beam is used for the housing of the height adjustability accessories.

SIDE RETURN

It is a fixed cabinet-type wooden unit which includes 3 soft-closing drawers, lockable pedestal and a cabinet equipped with a sliding-door and a hinged door, operated with push-button. It carries a double backrest for the concealed housing of the foot leg as well as the cable chain compartment. Both, the telescopic-action leg, and the retractable cable chain, drive through special openings on the top of the side return.

The second leg is housed in a specialized closed unit in the same melamine material as the remaining structure.

DESKTOPS

These are available in rectangular shapes with edged tops. They are made of 30mm-thick melamine faced chipboard and edged with 1,3-2mm-thick matching PVC.

MODESTY PANELS FOR DESKS

Available in wood or in metal. The wooden one is made of 18 mm thick melamine-faced chipboard in matching colour with the desk top with PVC edging.

The metal one is available in perforated or solid form. Both types of the modesty panels are fitted under the desk top through special brackets.

KD FITTINGS

All connections are carried through a 4-part metal KD fitting. Metal inserts are permanently inserted in the core of the particleboard enabling easier and unlimited disassembly and re-assembly.
