

# Lamda & Lamda Wood

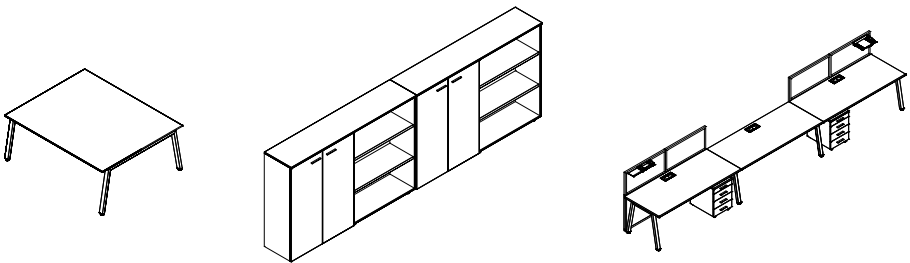

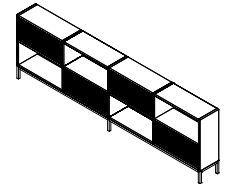

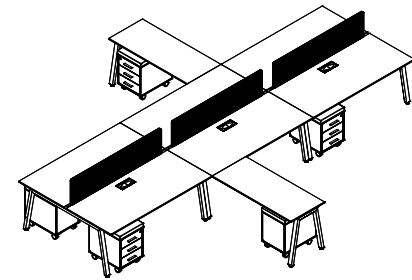

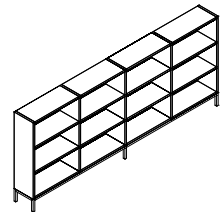

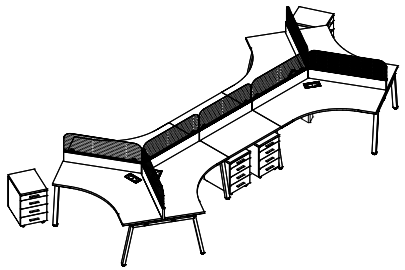

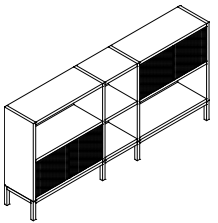

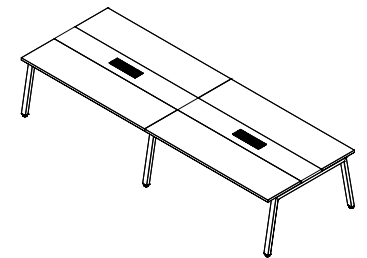

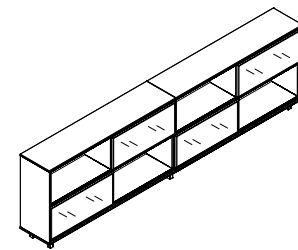

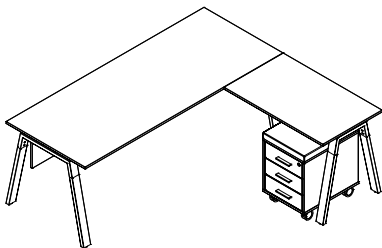

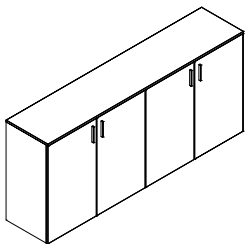

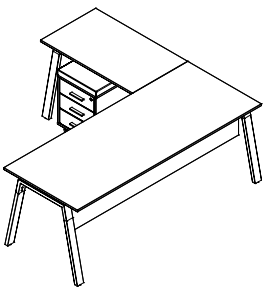

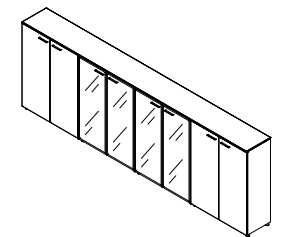

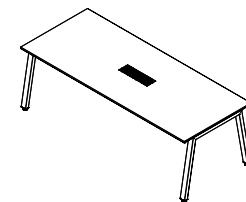

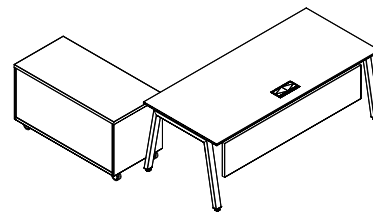

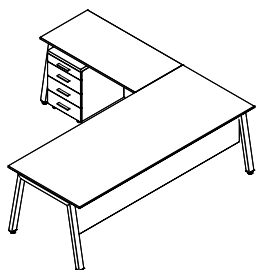

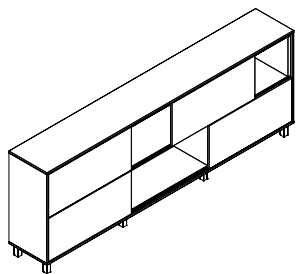

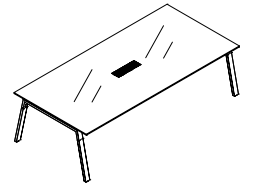

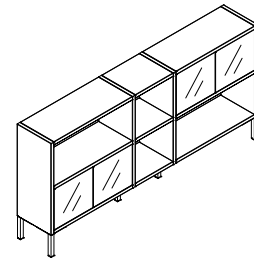

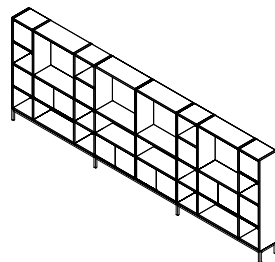

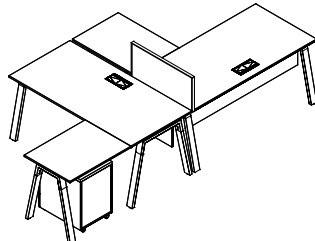

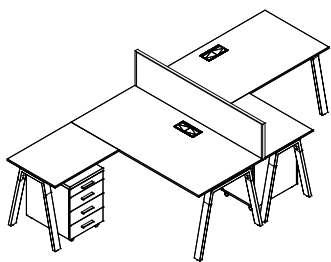

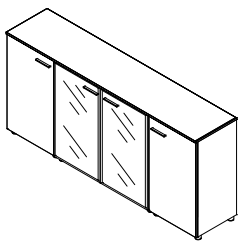

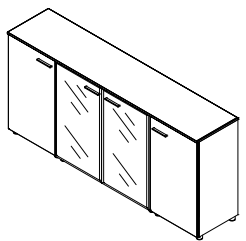

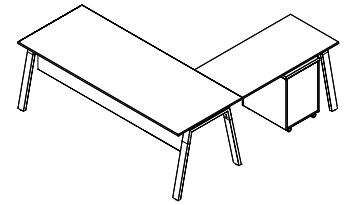

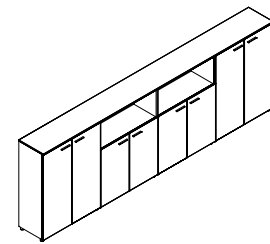

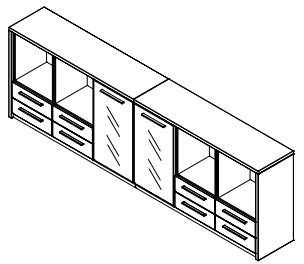

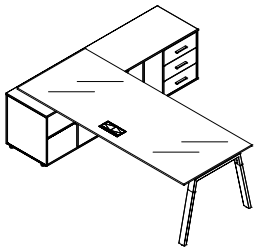

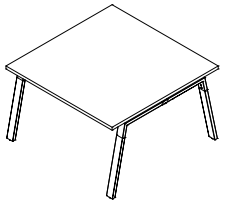

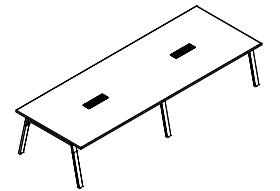

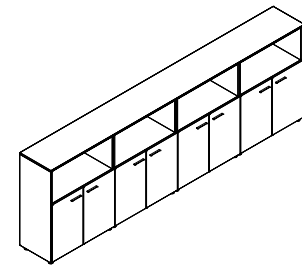

**DESK LEG**

Metal frame support on 4 inclined legs. The legs are made of tubular metal profiles of rectangular cross-sectional, folded, welded, and coated in epoxy powder. Alternatively, in LAMDA WOOD desk, the legs are made of partly solid wood of matching design shape to the metal. On the horizontal element of each leg, there are special "C" shaped brackets with holes for the tubular beams while, in the lower part, wooden elements are inserted and screwed to complete the leg. Foot is fitted with leveling feet for possible floor level abnormalities. Available in two versions to be used for tops of 80 and 60 cm in depth. Supplied knock-down, packed in triple-layer cardboard and complete with screws for fixing to the tops.

**HORIZONTAL SUPPORT BEAM**

They come in pairs for each individual desk top and they are made of square-sectioned tubular steel, painted in black, white and silver colors. They are supplied complete with plastic fixtures supported to the C-shape brackets of the legs. The beams come in lengths varying from 80cm to 200cm and can be used for both single and bench desks. Optional cable tray is available being supported on the support beams.

**DESKTOPS and EXTENSIONS**

These are divided into two categories: with shaped tops and with edged tops. Made of 18mm-thick melamine faced chipboard and edged with 2mm-thick matching PVC/ABS.

**MODESTY PANELS FOR DESKS**

Available in wood or in metal. The wooden one is made of 18 mm thick melamine-faced chipboard in matching colour with the desk top with PVC/ABS edging.

The metal one is available in perforated or solid form.

**STORAGE UNITS**

- The carcass structure is made of 18 mm thick particleboards faced with wax-finish melamine, available in the standard melamine colour card.
- Four foot height-adjusters are available for each cabinet in order to compensate for possible floor abnormalities.
- The doors are made of 18 mm thick particleboards faced with wax-finish melamine and are available in the standard melamine colour card. They are edged with 2,1 mm-thick PVC/ABS edgebanding material to match the surface.
- All shelves are adjustable ones at increments of 32mm and carry a thickness of 30mm.

- The glass doors are available with clear, coated, frosted or tinted tempered glass finish and come in 3 versions: the first version comes without a frame. The second version comes with a slim aluminum-look frame in silver or chrome finish while the third one comes with a melamine wood-frame available in the standard melamine colour card to match the carcass panels surface.
- All doors come as standard without a lock but a 2-key lock is available upon request.
- All doors can be optionally available with soft closing hinges.
- All locks come with interchangeable cylinders and master key as an optional extra.
- Door handles are available in black or silver or transparent finish.

**DRAWER UNITS**

- The carcass structure is made of 18 mm thick particleboards faced with wax-finish melamine, available in the standard melamine colour card.
- The carcass panels are edged with 0,8mm-thick PVC/ABS edgebanding material to match the surface.
- The drawer fronts are made of 18 mm thick particleboards faced with wax-finish melamine and are available in the standard melamine colour card. They are edged with 2mm-thick PVC/ABS edgebanding material to match the surface.
- The wood drawers feature a central lock with 2 keys. A master-key is available upon request as an optional extra.
- The runners are made of metal with nylon bearings complete with mechanical extraction stops and self-closing mechanism.
- The drawer units have black nylon double-action heavy-duty castors.

**KD FITTINGS**

All connections are carried through a 4-part metal KD fitting. Metal inserts are permanently inserted in the core of the particleboard enabling easier and unlimited easier and unlimited disassembly and re-assembly.
