

Ergo

 *Studio Office*

Particleboard surfaces are being supported on metal frame structure.

### **DESKS, WORKSTATIONS AND MEETING TABLES WITH METAL DESK FRAME**

The work tops are in particleboards, thickness 30mm, with melamine facing in a variety of colours and edge-finishing in 2mm ABS/PVC matching the main shade. The optional modesty panels are in particleboards, thickness 18mm, with melamine facing in a variety of colours and edge-finishing in 0,8mm ABS/PVC matching the main shade. The tops are secured to the metal desk frame via metal threaded inserts.

### **METAL LEG FOR DESK**

Made of stamped sheet metal, epoxy powder coated in anthracite, silver and white colours. Fitted with levelling feet and removable carter which internally houses the cable rise. The CPU holder is fitted directly to the leg via hooks or under the desk top. Available in two versions to be used for tops of 80 and 60 cm in depth. Supplied packed in triple-layer cardboard and complete with screws for fixing to the tops.

### **HORIZONTAL SUPPORT BEAM**

Made of sheet metal, epoxy powder coated in anthracite, silver and white. It is adjustable allowing only one element to mount any top between 80-120cm, 120-180cm and 180-220cm respectively. The beams design allow them to be used in a central position between two adjacent tops sharing the same leg. Its U-shape with a front opening, allows the storage of cables, power sockets, multimedia elements etc, offering a very tidy picture. Further access to the desk top, is achieved via plastic-protected grommets on each side of the beam.

### **DRAWER PEDESTALS**

Structure-work with particleboards, thickness 18mm faced with melamine, in a variety of colours and edge-finishing in 0,8mm ABS/PVC matching the main shade. The drawer fronts, thickness 18 mm, in melamine finish in a variety of colours and edge-finishing in 2mm ABS/PVC matching the main shade. The remaining structure is also 18mm thickness in melamine finish in a variety of colours and edge-finishing in 0,8mm ABS/PVC matching the main shade. The drawers are fitted with central locking, with side panels in wood PVC foil, thickness 12 mm; the drawer bottom is in fiberboard, thickness 3mm. The runner guides are in metal with nylon bearings with a pull-out end-stop and optionally with self-closing mechanism. The pedestals are completed with finishing tops for matching with work tops or used underneath work tops as a load-bearing structure, via four tubular pillars in silver colour. There are available with 1+3 drawers (1 stationary tray & 3 normal drawers) or with 1+1+1 drawers (1 stationary tray & 1 normal drawer & 1 drawer for hanging files)

### **LINEAR WORK TOPS, WORKSTATIONS AND TERMINALS JOINING SEGMENTS**

The work tops and the terminal joining segments are all in particleboards, thickness 30mm, with melamine facing in a variety of colours and edge-finishing in 2mm ABS/PVC matching the main shade

### **PARTITION SCREEN PANELS**

Made of thickness 18mm or 30mm, with melamine facing particleboard or in fabric upholstered finish, in a variety of colours and edge-finishing in 2mm ABS/PVC matching the main shade. Alternatively the partition panel can be chosen from the extensive selection offered by the SCREENS Collection. A 6mm thick white-frosted glass can be attached to the top slot of the partition panels. The panels are supported onto the worktop and optionally fitted with a slot for worktop accessories.

### **RECEPTION COUNTER TOPS**

Entirely made of thickness 30mm, with melamine facing particleboard in a variety of colours and edge-finishing in 2mm ABS/PVC matching the main shade

### **ACCESSORIES**

Telephone stand, paper holder, DOX-holder, flower pot, pen cup.

All the accessories are made of 1 mm thick die-cast sheet metal, epoxy powder-coated in metallic silver finish. They can be fitted on the multipurpose bar or directly on the optional aluminum profile of the partition panel.

### **PACKAGING**

All the components are disassembled and packed when supplied, and have paper triple type folding packaging, fillets for the perimetrical protection and for the fillings up, where needed. The corners are protected, where needed, through shock resistant edges protector. The packing closure occurs through sticky tape and welded nylon strap. Pedestals are assembled, and protected through polystyrene angle bars on the sides and packed using thick carton board.
